

Narcís Bonet always remained faithful to his people, defending his culture, as well as his longings for peace and freedom. His last will expressed when dying was a gesture to help political prisoners and those on exile. For this reason, before the unfair sentence that criminalizes the political, social and cultural representatives of our country, we inform that the recital of tribute to Narcís Bonet, scheduled for October 17 in the Biblioteca de Catalunya, is cancelled.

We believe that the condemnation directly affects the basic principles of any democracy and we are solidarity with all reprisals.
